DETAILED ACTION

Allowable Subject Matter

1. Claims 1-40 are allowed.
2. The following is an examiner's statement of reasons for allowance: as stated in the Detailed Office Action mailed 06/30/2004, in reference to claims 1-34, the prior art searched and cited failed to clearly teach or fairly suggest, a particle-optical arrangement, having a beam changing arrangement comprising a comb lens having at least one row of a plurality of field source members for providing a common spatial region with at least one of an electric field and a magnetic field, for acting on the beams entering the common field region, and wherein the row extending in the first direction as disclosed in claims 1 and 29. The prior art searched and cited failed to teach or fairly suggest a particle-optical deflecting arrangement for deflecting at least one beam of charged particles, wherein the deflecting arrangement comprises: a comb lens having at least one row of a plurality of field source members, the row extending in the first direction, and a driver arrangement for controlling source strengths of the individual field source members such that at least a dipole field is generated in a field region passed by the beam, the dipole field deflecting the beam as disclosed in claims 15, 19 and 26.

With respect to claim 35, the prior art searched and cited failed to teach of fairly suggest a lithographic method having steps of transferring a pattern onto a particle-sensitive substrate, wherein secondary electrons are released from the particle-sensitive substrate by the at least one writing beam and emanate from the particle-sensitive substrate, and detecting the secondary electrons with at least one electronic detector. Claim 46 is allowable because of its dependencies upon claim 35. Newly added claims 37-40 do not introduce elements and limitations that are clearly found in the prior art searched, accordingly, the claims are considered allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
